THREE WAYS TO DISPLAY

Choose the look you love

The same photograph can feel different in each finish. Choose the presentation that suits your home and the way you want to enjoy it.

Framed cotton rag

CLASSIC & FINISHED

A cotton rag print, selected wood frame and a white or off-white mat. Even borders give the photograph breathing room.

Satin canvas

SOFT TEXTURE

An unframed, hand-stretched canvas. Its visible depth and textured surface give the photograph a relaxed presence.

Matte metal

CLEAN & CONTEMPORARY

A photograph on a metal panel, with hanging hardware included. Choose it for a simple presentation without a surrounding mat or frame.

A useful comparison

An 8x10 is \$159 framed, \$139 on canvas or \$149 on metal. Framing includes a custom wood frame, selected mat and glass. All three arrive ready to hang.

Illustrations compare presentation, not exact surface sheen, frame profile or hardware. Prices and sizes follow.

CHOOSE YOUR FINISH

Fine art prints

Photo Rag arrives unframed. Canvas and metal arrive ready to hang. Choose the look you love; you do not need to buy a separate frame for either.

PHOTO RAG

For your own frames or gifts. Cotton fine art paper with a soft-gloss finish, printed and inspected in my studio.

SATIN CANVAS

For warmth and visible texture. Printed, coated and hand-stretched in my studio over 1.5-inch bars. Ready to hang.

METAL

For a clean, contemporary display. Matte metal panels made by a professional lab and inspected by me. Hanging hardware included.

Sizes are in inches. Each wallet set contains four copies of one photograph. Screen and print appearance can differ because prints reflect light.

READY TO HANG

Framed cotton rag

Custom wood frames

Cotton rag prints finished with a UV-protective spray, custom framed locally with glass, an acid-free mat and backing. Ready to hang.

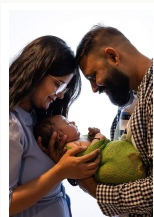

Choose from three modern wood profiles in the standard range. Black and light maple finishes are available; I confirm your selection before production. White or off-white mats complement each photograph.

PLAN YOUR WALL

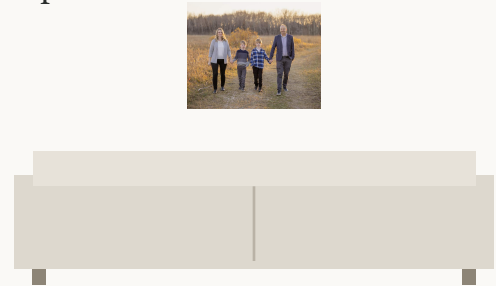

Find the right scale

These diagrams use the same 72-inch-wide sofa and the same scale. A print can look smaller on a wall than it does in your hands.

Family Wall Collection

Single examples show image size for canvas, metal or unframed prints. Framed prints are larger; the collection uses nominal frame sizes, excluding moulding. The 11x14 falls between the smaller examples.

Measure your space, mark the planned outline with removable tape, then view it from across the room. Send me a wall photo and measurements if you would like help.

SOMETHING MORE PERSONAL

Custom framing

Designed for your room.

Our standard framed prints use selected wood profiles and even mat borders. For other sizes, wider borders, multi-opening layouts or a particular finish, custom framing begins with a consultation.

We can explore

- Frame profiles and finishes
- Mat colours and proportions
- Glazing and display needs
- Sizes and coordinated arrangements

You approve the materials, dimensions, price and timing in your individual quote before production.

A simple place to begin

Send me your favourite image numbers, a photograph of the wall and the space available. I will help you explore a suitable direction and provide a quote for approval before production.

Illustrative frame style. Custom framing is quoted separately; materials subject to availability.

THE HEIRLOOM ALBUM

A story you can hold.

For a wedding day, a new arrival or a season of family life. A personally designed album gives your photographs a place together.

KEEP THE WHOLE STORY

The Heirloom Album

Personally designed in Winnipeg with thick, layflat pages. I arrange your photographs into a story, then send a layout for your review and approval before production.
