THE CARE BEHIND EACH PIECE

# Personally prepared, from screen to home.

I photographed and edited your images. When you order through me, I carry that same care through to the finished piece, with personal guidance along the way.

## Faithful to your edit

I prepare each file for your chosen size and material in a colour-calibrated workflow, keeping the finished print faithful to the colour and feeling of my editing.

---

## Made with care

I print your cotton rag photographs and print, coat and hand-stretch your canvas in my Winnipeg studio. For framed pieces, metal, folios and albums, I coordinate with trusted specialists.

---

## Help choosing well

I help you choose photographs, crops, sizes and finishes that work together and suit your home. I personally inspect your finished pieces before they reach you.

---

## Delivered personally

I hand deliver orders in and around Winnipeg. Delivery is included from \$100 and is \$15 below \$100. Other locations are quoted. You can come to me with questions from selection to delivery.

## THREE WAYS TO DISPLAY

# Choose the look you love

The same photograph can feel different in each finish. Choose the presentation that suits your home and the way you want to enjoy it.

## Framed cotton rag

### CLASSIC & FINISHED

A cotton rag print, selected wood frame and a white or off-white mat. Even borders give the photograph breathing room.

## Satin canvas

### SOFT TEXTURE

An unframed, hand-stretched canvas. Its visible depth and textured surface give the photograph a relaxed presence.

## Metal

### CLEAN & CONTEMPORARY

A photograph on a metal panel, with hanging hardware included. Choose it for a simple presentation without a surrounding mat or frame.

## A useful comparison

An 8x10 is \$149 framed, \$109 on canvas or \$109 on metal. Framing includes a custom wood frame, selected mat and glass. All three arrive ready to hang.

Illustrations compare presentation, not exact surface sheen, frame profile or hardware. Prices and sizes follow.

CHOOSE YOUR FINISH

# Fine art prints

Photo Rag arrives unframed. Canvas and metal arrive ready to hang. Choose the look you love; you do not need to buy a separate frame for either.

| Print size        | Photo Rag | Satin canvas | Metal |
|-------------------|-----------|--------------|-------|
| Wallets: four 2x3 | \$10      | -            | -     |

| 16x20             | \$65      | \$179        | \$219 |
| 20x24             | \$85      | \$229        | \$299 |

PHOTO RAG

For your own frames or gifts. Cotton fine art paper with a soft-gloss finish, printed and inspected in my studio.

SATIN CANVAS

For warmth and visible texture. Printed, coated and hand-stretched in my studio over 1.5-inch bars. Ready to hang.

METAL

For a clean, contemporary display. Metal panels made by a professional lab and inspected by me. Finish confirmed before production. Hanging hardware included.

Sizes are in inches. Each wallet set contains four copies of one photograph. Screen and print appearance can differ because prints reflect light.

READY TO HANG

# Framed cotton rag

## Custom wood frames

Cotton rag prints finished with a UV-protective spray, custom framed locally with glass, an acid-free mat and backing. Ready to hang.

Choose matching modern wood profiles in black or light maple; I confirm your selection before production. White or off-white mats complement each photograph.

| Print size | Inside frame | Even mat | Price |

PLAN YOUR WALL

# Find the right scale

These diagrams use the same 72-inch-wide sofa and the same scale. A print can look smaller on a wall than it does in your hands.

20x24 print

Family Wall Collection

Single examples show image size for canvas, metal or unframed prints. Framed prints are larger; the collection uses nominal frame sizes, excluding moulding. The 11x14 falls between the smaller examples.

Measure your space, mark the planned outline with removable tape, then view it from across the room. Send me a wall photo and measurements if you would like help.

# Custom framing

## Designed for your room.

Our standard framed prints use selected wood profiles and even mat borders. For other sizes, wider borders, multi-opening layouts or a particular finish, custom framing begins with a consultation.

### We can explore

- Frame profiles and finishes
- Mat colours and proportions
- Glazing and display needs
- Sizes and coordinated arrangements

You approve the materials, dimensions, price and timing in your individual quote before production.

## A simple place to begin

Send me your favourite image numbers, a photograph of the wall and the space available. I will help you explore a suitable direction and provide a quote for approval before production.

Illustrative frame style. Custom framing is quoted separately; materials subject to availability.

TWO OR THREE FAVOURITES

# A keepsake, ready to display

For a new arrival, a family milestone or a thoughtful gift. A folding folio brings a few favourite photographs together on a shelf, dresser or desk.

MATTED

LAMINATED

ICE

Shown as trifolds. Each folio folds closed for keeping and opens to stand on display. The same photographs show how the three finishes compare.

Illustrative mockups using my photographs. Colours, panel proportions and reflections may vary from the finished product.

CHOOSE YOUR FOLIO

# Three finishes. Your favourites.

Choose a bifold for two photographs or a trifold for three. Both are finished keepsakes that can stand on their own, with a cover chosen to complement your photographs.

| 8x10 folios | Bifold / 2 images | Trifold / 3 images |
|-------------|-------------------|--------------------|
| Matted      | \$129             | \$179              |
| Laminated   | \$149             | \$199              |
| Ice         | \$179             | \$249              |

## Matted

A classic presentation with a window mat around each photograph. A quiet, traditional look with space around your images.

## Laminated

Photographs mounted to the panels and finished with a protective laminate. A simple presentation with no window mat.

## Ice

Photographs presented beneath thin, clear acrylic with a subtle glossy finish and fine edges. A polished presentation for a few favourites.

Standard cover included. Specialty cover upgrades quoted separately. I help with selection and crops, and confirm your cover and layout before production.

For a wedding day, a new arrival or a season of family life. A personally designed album gives your photographs a place together.
