PRINT PRODUCT GUIDE

The Art of the Print

I personally produce every fine art paper and satin canvas print in my Winnipeg studio. Printing in-house allows me to oversee the process and check each finished piece, creating artwork that brings your photographs into everyday life.

The Materials Behind the Quality

- **Professional Pigment Inks:** My Canon 12-ink system produces rich colours, detailed shadows and smooth transitions in skin tones.
- **Fine Art Paper & Canvas:** Cotton-based Photo Rag offers beautiful detail with a soft gloss finish. Satin Canvas adds texture and a gentle sheen, giving your photographs a different look and feel.

Why In-House Printing Matters

- **Careful Colour Management:** I manage the printing workflow for natural skin tones and balanced colours. Prints may appear slightly different from screens because they reflect light rather than emit it.
- **Lasting Display:** Quality materials are selected for longevity. Keeping artwork away from direct sunlight and excess moisture helps preserve its appearance.
- **A Personal Final Check:** I inspect every print for colour, detail and finish before it leaves my studio.

PHOTO RAG

Cotton-based fine art paper with a soft gloss finish that brings out natural skin tones, rich colours and fine detail. Printed in my Winnipeg studio, Photo Rag is a beautiful choice for displaying your favourite photographs in a frame.

SATIN CANVAS

Canvas adds visible texture and a gentle satin sheen, giving your photographs a warm, tactile finish. Printed in my Winnipeg studio, it works beautifully for family and wedding portraits displayed as wall art.

METAL

Metal panels offer vivid colour, crisp detail and a smooth surface for a contemporary look. Produced through a professional print lab, they're a striking option for displaying a favourite portrait.

The Heirloom Album

Personally designed in Winnipeg, your heirloom album brings your favourite photographs together in a book you can hold, share and revisit. Each layout is thoughtfully arranged to tell your story, and you'll review and approve the design before your album goes into production.

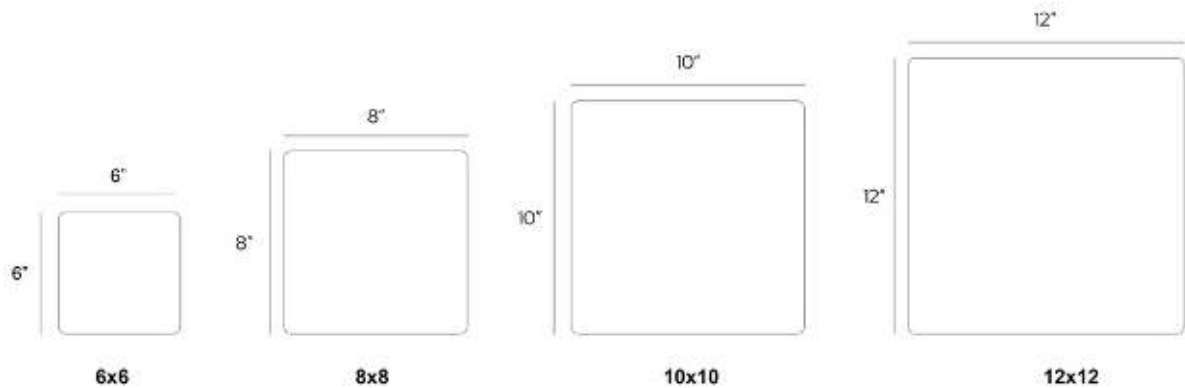

- **Photographic Printing:** Rich colours, natural skin tones and fine detail, with luster paper or an optional deep matte finish.
- **Layflat Design:** Thick pages open flat, allowing photographs to extend across facing pages.
- **Cover Choices:** Choose from linen or genuine leather, with additional cover and personalisation options available.
